Narrator: The Arecibo radio telescope is very famous. In 1995, film director Martin Campbell made one of his famous films about 007 James Bond in the Arecibo Observatory. People visit the observatory because they want to see the huge telescope, and because they are James Bond's fans. Brian's uncle is a 007 fan too. He visited the Arecibo telescope four years ago. He got up early and had breakfast at the hotel. He bought a bus ticket and went to the observatory at 9. He was in the observatory for 3 hours. It was fantastic! At 1, he went to Rio Abajo. It's a beautiful river. He swam in the river and walked back to his hotel in Arecibo town at 5. He was tired, but he was very happy.
